CALLING *all* DREAMERS

introductory dream workshop

We all dream—when asleep, our guard is down, and we are free of the constraints of waking life. We are open to the messages and unconscious invitations of our dreams. Now, whether we dream long narratives or short fragments, these dreams often have an impact upon our waking life. Wouldn't it be great to have keys to unlock the meanings of these dreams? To understand dream patterns, environments, themes?

If you are interested in or have just begun to study your dreams, you are embarking on a wonderful journey of spiritual awakening. The path of discovery into the hidden language and multi-layered meanings of your own dreams can lead you into a healthier and whole sense of who you are and where the Divine is leading you. This Dream Road will open vistas of complex, ingenious and arresting symbols that will bring you insights that will surprise, delight, and challenge you.
