## OUR JOURNEY FROM HERE

### *Forever Changed & Ever-Evolving*

Emerging from an extraordinary year, profound changes and questions may be persisting within you. What are the most meaningful insights you discovered from your experience? How is the Spirit calling you to respond as you journey from here? During these retreat days we will explore—through narrative, contemplative practice, and soul tending—the deeper impact of living through unimaginable realities and how we move forward in the full and creative expression of who “I Am.” Through this discovery and sacred encounter, we will come to better understand how to be *present to all that is* in God’s call and invitation to “Take off your shoes, for where you stand is holy ground” (Exodus 3:4-5).
